Chinty Trasurer,

g r We have received a letter from a correspandent in New-York, which gives us on encouraging account of the pro-pects of the Whigs in that State. The writer assures us that their ! trumph will be complete in the full elections. that the city will elect four Wlug members to Congress and their entire ticket in the State Fig. lature, and congratulates the Whigs on the bright prospects of their cause throughout the length and breadth of the land, assuring them that they have nothing to dishearten, but every thing to encourage them in the coming cleekede, and that the noble example of Louisiana, which has just fought and conquered a desperate foe, will sour them on to renewed exections in the glarious cause

We con assure our correspondent that Maine will not now fall back being the first to " set this ball in motion,' when the whole country are demaining the standard of the spoilers, all Taxtered and torn by repeated defeals. As to the Presidential question, to which our correspondent allodes, we can say, that whatever preferences the Whigs of Maine may have for HENRY QUAY or DANIEL WESTER, their patriotism will lead them to yield their preference to a National Consention, and they will unite lient and soul in support of the man that body may select. The nomination of President, should come from the people and not from the presses of the country, and when that nomination does come, where er the nominée be a northern, southern or western man, he will receive our hearty support. We go not for localities but for PRINcipuzs, and for the man who will unite the greatest body of the Whigs throughout the whole country

/ What will the poor locoloco papers do? The Incoloco majority and the Senate of Main's the hut winter en ued for themsely48 an impenstable fame, (a bad fame) It was not had the spatance of the memory of Governor Lincoln alone that they postponed the interests and wishes of the people to the supposed or pre-Stended interests of "THE PARTY" The interests of the people demanded that an additional Judge should be placed upon the bench in each of our Couris It is specialely impossible for the present number of Judges to do the business of the Courts - They give themselves to the business of their offices with a wal and de votion that are truly praise worthy, but to discharge their ardulus duites, in a manner satisfactory to themselves and to the people is utterly impossible, became the labor is more than any s z men can go through with This State of things is well known to every observing inind The disparity between the number of Judges had the amount of business to be done by them has been increasing for several years, with the increasing population and husiness of the State The remedy is obvious. The people do not want a change in the system. It is one with which they have long been acquainted. They are satisfied with it, the remedy is to increase the number of Judges. This remedy is suggested by every & sprasionate view of the case, to it there is made, there can be made, no reseonable objection. In the House last wifter, the Whigs had a majority. With that devotion to the public interest which they have always manife sted, they introduced and carried through the House a bill to increase the number of Judges by adding one to the number in each Court Every consideration of economy and at sound policy required the passage of this bill, and repassed, without any very strenuous opposition, through the House The Senate, misrepresenting the people, (the true majority being shown! by the votes for Governor and the members of the popular branch,) had the power, by a bare pirty majority, to deleat the bill. The public interest demanded that the bill should be passed How did the bill effect the Loco foco party interest ? The vote shews The Loco-focos holding the power in the Senite refused to pass it. It was in the power of Higgins and Emery, the Senators from the county of Penooscot, voling with the Wings, to pass the bill. They will long. be ramembered for the base subserviency to party discipline with which they sacrificed the interests-and wishes of their county to the Dagon of Loco-focotsm. Why did they not support this bil? If they did not know the pressing need of this measure they were not fit for the station they held. If they did know it and refused to act in conformity with the wishes of the people, and in accordance with their own unbia-red judgment, they deserve to be nurked as men who wilfully betrived a public trust to the "able financier" These "hard money" men, party interests. They cannot plead ignorance the advocates of a "specie currency", should as an excuse. They knew the public good renot allow their "paper making Secretary to quired that this bill should pass. They also knew that if the bill should pass the appoint ments would be made by a White Governor and Council. Such an appointment would not be in accordance with the interests of the Loca-foca PARTY They were willing the pullic interest should be served when the Loco loco party interest could be served with it not otherwise Hence one of them, Emery, described his post to postpore the bill to the next Legislature ILT STOP THAT BALL "Stop that Ball" says How was the interest of the Loco foco party the 1 ray Whig, which has just passed over subserved by thus defeating the wishes of the Louisiana, and is on its way to make the tour people? The answer is obvious. The benefit of the States stop it we've, it has knock the party would derive from having in prospect office-holders and expectants prepare your nets prevaried over the people, and the bill was reprairies, it will role over Illianis, Missouri, ling election they will take circ that a mere par

haves in the world, to kill, to kill

THIS system does indeed live still, and is practised by the very man who laugh at Doctor licits a share of patronage. He will attend the Sangrado as a visiouary fool. The immaculate sale of Peal Estate, Vessels, or stocks of Merchan-Let this truth be impressed upon every mind that all pain and weakness proceed from the presence of morbid, stagnant and corrupt humors אדא א Booy by which the circulation of the blood s impeded, and that the only sensible method is to remove them from the stomach & bowels, they take Brandreth's Pills, concocted forth

From the pure products of the earth; They own no after sad alloy.

They often save, but no'er destroy ! BLEEDING ALWAYS IMPROPER,

"For the life of the flesh is in the blood," Levisious, chapter xvii. v. 11. When the properties of BHANDRETH'S VEGSTABLE UNIVERSAL PILLS shall have been appreclated, bleeding will no longer he thought of as a remedy for diseases, for m profest inflammations, eight or ten of them will take, in the course of two or three hours, more of the impure humors from the body, by the stomach and howels, than bleeding to the extent of forty ounces could possibly have done, and it should be remembered that the Pills remove QNLY those partsfrom the blood which were the cause of inflammation; whereas bleeding removes the essential parts also. How great the prostration of all the corporeal powers after a copious bleeding! On the contrary, what agility and strength is felt after a done of this medicine; the body is indeed hightened of a load. Nothing is equal to ridding the vitiated himners with a vegetable medicine of this kind, which 84 years have proved never to do minty, but always good. Is the pulse too bigh? A dose of these Pills will bring it down. Is it too on I the same means will increase if to a proper standard. Is it tramulous, showing nervous excite-

ment? the Pills, by soothing the system will allay it. Thousands of the most respectable eithrens of the United States will be referred to with pleasure by Dr. B who have for many years been in the habi of being bled as often as four times in a year; and whose constitutions, in consequence, were becoming weaker and weaker, but who, since they have made use of these Pills, have never lost a drop of their precious blood. When any of their old symptoms appeared, instead of running to a Doctor and having a vein opened, they lake swallowed six or eight Pills, which soon removed the vitiated humors that were impeding the blood in its circulation. Those sensible prople, simply by the use of these invaluable Pills, are increasing every day the powers both of body and mind, which, by the practice of bleeding, were both becoming dreadfully impaired.

The following cases of cure, by the use of Brand-reth's Pills, alone, are submitted with respect, to the unprejudiced portion of the Boston public :

ASTIIMA CURED. The following extraordinary case of Asthma, which is authenticated by seventeen respectable and well known inhabitants of Greenwich, Ct., deserves, by all-persons, a core ful perusal. The most projudiced flust own that exidence is on the side of these Pills, which, by the cures they are daily making show there is no neces sny for any other medicine.

This is to certify that Thomas S. Brown of Greenwich, Ct , was taken with a cold, numb feels ing, on the 13th of June last. He began to cough and raise phlegm and in the course of twenty-four hours about two querts of thick white jelly was expectorated. Three physicians in Stamford, Green wich and Sawpits, pronounced it a nervous hamid spasmodic Asthma, and after prescribing for some me to no effect, the three consulted together, and finally declared that they could do him no good; it would and must result in consumption, and death would ensue, and that in a very short time. The pain was excessive in all parts of his body, and the difficulty in breathing was such as almost to eause strangulation. He was reduced to a mere skelelon, and finally gave himself up to death. After being in this miserable state nearly two months, an advertisement of Dr. Brandreth's Vegetable Universal Pills, and immediately sent by Capt. J. Waring of Greenwich, for a box, and found relief in the course of a sew days, which encouraged him to persevere, and now having taken them for about four months according to the direction, is entirely recovered, and so far as we can judge, in consc quence of taking the above Pills, which we have also used in our families, and have found them in valuable.

Certificate of cure of CHOLICS, FITS.&c. Ac From a BOSI ONIAN, whose address is at the foot. [TRUE COPY.] To Dr Benj. Brandreth:

My dear Sir. I write a few lines to inform you that I have been making use of your Vegetable-Universal Pills. -- I have been afflicted with a com-plaint supposed to be caused by PAINT. I was subject to a great coldness through my whole system, attended with frequent pain and severe eliolics; for the year, I have also been subject to fits, which would seize me in the night, and when I have come to myself. I have been as weak as a child. I am ready to state the facts more particularly, and how the medicine acted upon me, at my residence, No. 17 Sudbury street, to any one who wishes to

I feel the medicine has been of very great service and that the diseases under which I labored have been by it ENTIRELY REMOVED, for which I shall ever feel grateful to Providence and to you.

THE most safe, effectual and economical remody for diseases of the Human Constitution that has ever been discovered.

These Pills are composed entirely of materials extracted from Medical Plants, and are warranted not o contain one particle of mercury, or any mineral substance Dr. Kingley, the inventor of this valuable medicine, from his knowledge of the human system derived from a long and extensive practice. has arrived to the conclusion, that the great and primary cause of most diseases is a decangement in the functions of the liver; or in other words an increased or diminished secretion of the Bile.

So well is this understood, that it is common for persons to say when they feel unwell that they are billious, meaning that they have too much bile in the stomach. On the other hand, when the flow of bile s diminished, the process of digestion is imperfectly performed, the patient becomes weak and emaciated. because nourishment contained in the food taken into the stomach is not properly extracted, and the food is ejected in a crude state. Dr. Kingley is confidens that the famous Hygean Theory, so called, that impurity of the blood is the cause of all diseases, a great absurdity. Every one who reflects upon he subject a moment, will perceive that impurity o he blood is a secondary, not a primary complaint the effect, gird not the cause of the disease. the functions of the liver are deranged, and the flow of bile increased, it is often taken up by the absorbent vessels and carried into the circulation, and be comes mingled with the blood as in Jaundice, when the patient shows it is his countenance. Now this impurity of the blood is caused by an increased flow RICHEST IRON ORE, in which the WART OFFIEL is secretion of the hver and restore it to a healthy state. Dr. Kingley has apent much time in experimenting with different vegetable medicines, for discases of the liver, and now offers his Universal Family Pills as the liest, most convenient and cheapest medicine that can be prepared for general use; and in off-ring them talbepublic, he is octuated more

by benevolent than pecuniary matives, as the price of the medicine will show. Dr. Kingley flatters himself that his long experi menting with vegetable medicines has enabled him lieved that a rare opportunity is now presented for to discover the time and only substitute answering all the purpose of mercurials, without any of attendant exils. One great quality of his family Pills is, that they have the alterative principle combined with their cathartic or operative quality, so that they not only cleanse the stomach and bowels by purging, but they regulate the liver, change the morbid secretions, strengthen the digestive organs, purity the blood, invigorate the circulation, and give

tone and energy to the nervous system.

They are mild and pleasantin their operation, and almost immediate conviction of their reality from the first dose. They can be taken with safety by persons of any age, and the feeble, the infirm, the neryous, the delicate, are strengthened by their operaeguet nervaus britebilites und rootspranges, from The inhalcrer source, and invariably produce sound

The Family Pills are an invariable remedy for jaundice, sick and nervous headache, dyspepsia ostiveness, sickness of the stomach, hearthurn, al hilious complaints, levers of all kinds, and if taken at the commencement will invariably check their progress, and save the patient from a protracted and dangerous sickness. nervous and hypochondriacal affections loss of appe tite, and all complaints to which females alone are subject. They operate as a mild and speedy purge. and are a safe and cartain remedy for worms in

I might publish a small volume of certificates but consider it unnecessary, as the medicine will recom-mend itself to all who will make trial of it. JOHN KINGLEY,

These Pills are put up in seat boxes of two sixes; the small size contains 25 Pills, and the retail price is 25 cents, the large sixe contains 60 Pills, the price is 50 cents.

A WELL BUILT STONE HOUSE, fortytwo by twenty fourfect, with the land adjuining. A LanguSTORE HOUSE calculated for an extensive country business. Five COTTAGES the village with gardens attached. A FARM HOUSE with a spacious and well constructed Barn, Granary and out buildings, and one hundred and lifty acres of highly cultivated meadow land adjoining. The whole estate is abundantly supplied with springs of excellent water, and streams, with water power sufficient for saw mills, grist mills, forges. turnaces, &c. It is situated on the Moshannon and Clearfield Creeks, about ten miles frum The river Susquehanna on the north, to which the Moshannen and Clearfield Creeks afford navigable outlets in time of freshets and about twenty five inites from the PENNSYLVANIA CANAL on the southeast, to which a highly favorable route is presented for the construction of a Rail Road to Hie JUNIATS DINIS. ION of the Pennsylvania Canal, through a portion of Huntington County, abounding in IRON ORF, of the finest quality, where a number of forges and furnaces have been longestablished, but which are aboring under difficulties from the WANT OF THIS GOAL. A charier has been obtained for the construction of the rail road, THE LUCATION OF WILLIAM is completely, and the estimates furnished, pre-paratory to a commencement of the work. The distance from the COAL MINES to the CANAL i only twenty eight miles.

The MAGNIFICENT TIMBER upon this estate, consists of all the varieties usually found in Penn-Sylvania, but whe white PIRE, which is more par-TICULARLY ABUNDANT, is of the largest description, fit for masts, spars, Pannel Boards, &c and of an excellent quality. The Bisuminous Coal is found in every hill, in veins of various thickness, viz four feet two inches, six feet and nine feet, and there are two, three or four veins in a hill according to its elevation. The quality varies, in different situations FROM THE HIGHEY BITUMINOUS SOFT COAL, CLOSELY RESEMBLING the NEWCAS-TIF COAL OF ENGLAND, to a much harder, and beavier Coal containing less bitumen. Line stoke TIRE CLAY and IRON STONE have been discovered eccompanying some of the measures, and will doubtless be found to be general, upon a rroporexamination. A HIGHLY FAVORABLE CHARTER has been granted by the Legislature of Pennsylvania containing MINING, MANUFATURING and TRAKS-PORTING PRIVILEGES for a period of SIXTY YEARS authorizing a company to hold this estate in a cor porate capacity, and to convey to market its vas
